Early Tulip Collection

The rainbow never contained as many gay and beautiful colors as you'll find in our collection of single and double early tulips. A warm sunny location will bring on these flowers early in the Spring. Best quality bulbs.

Hyacinths will do well in most types of soil but for best results like an inch or two of rotted manure below the base of the bulb. Plant them 6 to 9 inches apart and with at least 5 inches of soil above the top of the bulb.

Be sure to put a layer of soil between the manure and the bulb. Bone meal may be used instead of manure at the rate of 1 lb. to the square yard in the lower soil.

Bulbs offered are the best grade for outdoor planting.

Jan Bos—The finest deep red Hyacinth, and an excellent forcing variety, too.

King of the Blues—Rich indigo-blue, late forcer.

L'Innocence—The most popular of all, easy forcer, pure white.

Marconi—Cerise pink, compact truss, late forcer.

Myosotis—Light blue, very large flowers.

Ostara—Porcelain-blue, very good forcer, new.

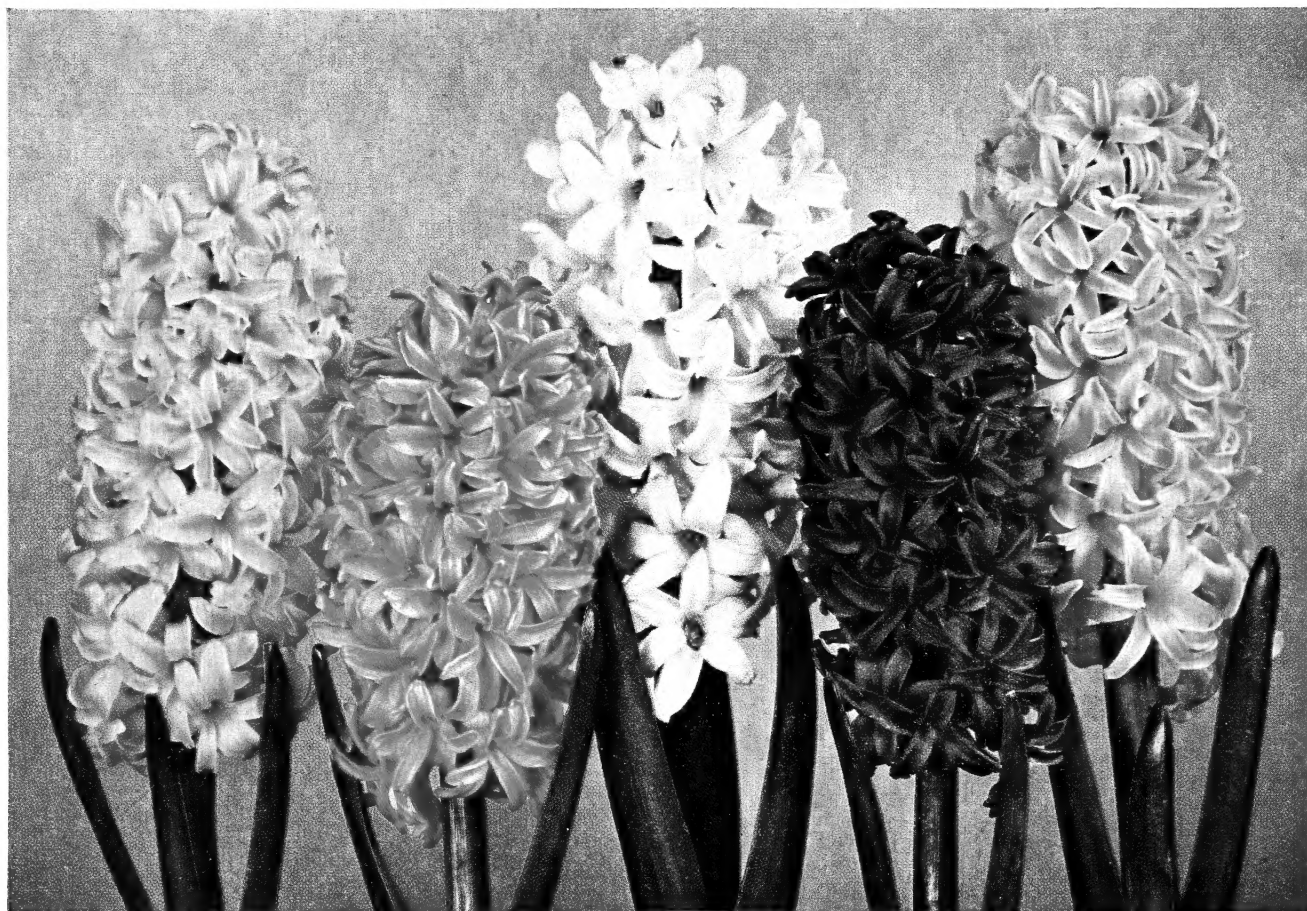

Pink Pearl—Large perfectly formed flower of a beautiful pink color. A remarkable fine forcing variety, doubtless the very best in this color.

Queen of the Pinks—Bright cerise pink, compact truss, late forcer

Yellow Hammer—The best of the yellow Hyacinths.

INDIAN CHIEF

BREEDER TULIPS

Breeders are the unbroken or self colored forms of the old Florist Tulips. Most of the varieties are purple, maroon or terra cotta. They have flowers of enormous size and flower approximately at the same time as the Cottage and Darwin Tulips. These aristocrats of the tulip family with their immense blooms, borne on strong stems, frequently exceeding a height of 40", have recently become the most popular of all the tulips.

All of these varieties may be made to bloom in pots or pans in early March by means of gentle forcing in a moderate temperature and daylight. Only the deepest pots should be used for forcing this type.

FIRST QUALITY

3 for 50c; 12 for 1.50; 100 for 10.50

Bronze Queen. A very handsome large flower of golden bronze shaded amber with faint plum bloom, inside glistening bronzy amber. It has a shady beauty of its own that is most effective. A great favorite.

Dillenberg. Lovely orange red with bronze yellow edge, inside glistening orange. Egg shaped.

Indian Chief. A most artistic flower, carried on a very tall stiff stem, reddish purple with coppery brown. 32".

Louis XIV. Very large, goblet-shaped, magnificent flower. Dark, dull, bluish violet, with tawny margin, circular dull blue base, starred yellow. A most wonderful tulip of striking beauty. From 32" to 40".

President Hoover (Breeder). Medium size. Orange-scarlet. May 20th.

BOTANICAL TULIPS

The following tulips are all wild species, and many of them rare. They are all beautiful and will be highly appreciated by lovers of hardy bulbous plants. Their right place is the rock garden, where their flowers are seen to advantage.

Eichleri—A grand tulip from Turkestan, producing immense crimson-scarlet flowers with glistening black center marked with gold. Ht. 11".

3 for 50c; 12 for 1.50; 100 for 10.50

3 for 60c; Doz. 1.60; 100 11.00

Kaufmanniana—7". Creamy white with more or less carmine-red on the reverse, center golden-yellow. Flowers open out in the sun to a great size, petals large, broad and reflexing. A Tulip of most elegant form and great beauty.

3 for 50c; 12 for 1.50; 100 for 10.50

Praestans—"Fuselier". A fine species from Bokhara, with large bright orange-red flowers in early April, sometimes four or five on a stem, thrives best if planted 12" deep. Height 14".

3 for 60c; 12 for 2.00; 100 for 14.00

RED EMPEROR

Red Emperor (Fosteriana, Mme. Lefeber) — This is the world's largest tulip. The enormous flower is often 5 inches high and 9 inches across and is carried on strong, tall stems. They bloom very early, with many of the daffodils. The color is the loveliest shade of glowing scarlet imaginable, base yellowish. Positively the most beautiful tulip under cultivation.

Those who are fortunate enough to obtain this rare variety will find it the most attractive flower in the garden. First class certificate, Haarlem, 1932.

3 for 75c; 12 for 2.00; 100 for 14.00

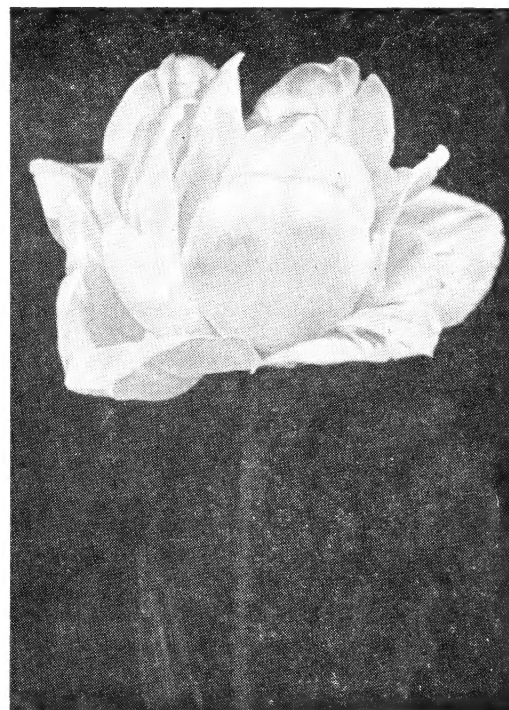

Double Mayflowering Tulips

3 for 50c; 12 for 1.50; 100 for 10.50

Eros—Old rose, a markable exquisite novelty, ht. 22".

MT. TACOMA

COTTAGE TULIPS

This class of late or May-flowering tulips comprises a miscellaneous catch-all group of old-fashioned tulips that have been grown for generations in the cottage gardens of England and Europe. They have been much improved in recent years, through selection and hybridization, and

are now rivaling the Darwins in popularity. They are tall growing and their petals are more open than the Darwins. In forcing, care must be taken to bring them on slowly.

3 for 50c; 12 for 1.50; 100 for 10.50

MARSHALL HAIG

Golden Harvest—28". Lovely deep lemon-yellow of large size and good substance, stiff stems. A shading of green through the coloring makes it one of the loveliest Cottage tulips. Highly recommended.

Advance—A sensational new extra early blooming tulip with 32" stems. It is larger than any other Darwin, stronger stems and is days earlier. The inside of the huge blossom is bright scarlet with a deep-black base. The outside is red with a deep roseate flush. A tulip that will be the center of attraction in any garden.

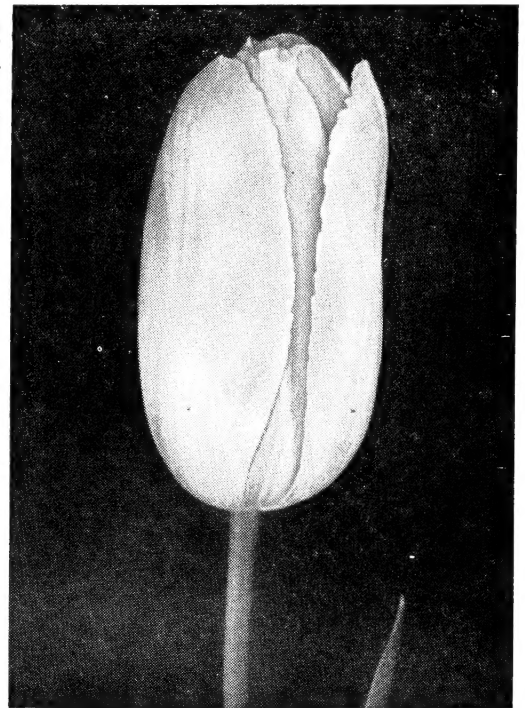

Barbara Pratt, 27". A showy late tulip with flowers of warm carmine edged with soft rose.

Belle Jaune — A wonderful fine shaped garden tulip of a dark yellow color.

Carrara—Purest white, ivory stamens. The rounded segments all come to the same level when the flower is half open. Excellent forcing. 22".

Dido—Carmine pink edged salmon pink and amber.

Ellen Willmott—Soft canary-yellow with reflexed petals like a lily; slightly fragrant; height 18 inch.

MRS. JOHN T. SCHEEPERS

Grenadier (Cottage). Medium large. Geranium-like. Mid-May. Height 26".

John Ruskin—Soft blend of apricot, rose, mauve and amber.

Marshall Haig — Brilliant scarlet with yellow base. Tall and large. Outstanding.

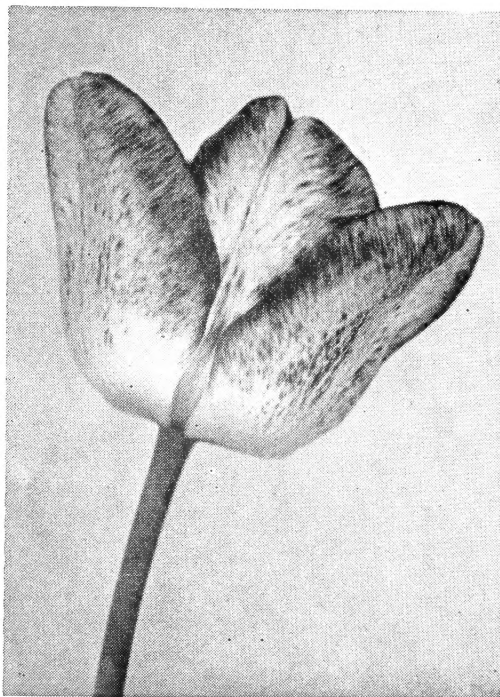

Mrs. John T. Scheepers— 26". Long petaled flower of stunning golden yellow, ivory pollen. Very tall and robust with heavy sturdy stems. The blossoms are enormous, petals of unsurpassed substance. A real giant and probably the finest in this color.

Mrs. Moon — Rich pure yellow with long pointed petals; very popular and a fine cut flower.

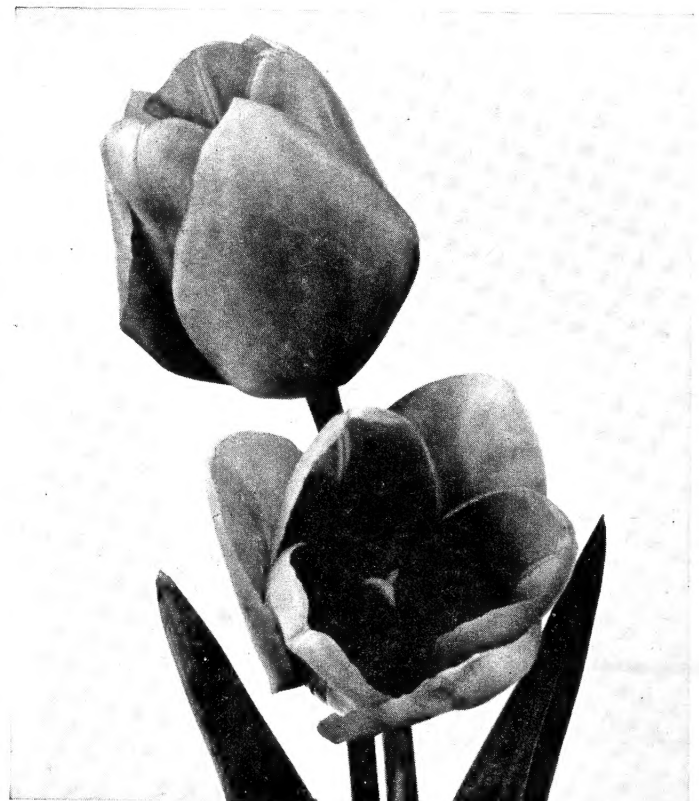

Ossi Oswald — Creamy white flushed rose-pink. Fine, tall tulip, show flower.

Picotee (Maiden's Blush)—Pure white, margined rose; a most elegant flower with gracefully re-curved petals.

White City—Cream white when opening, changing to pure white when in full bloom; yellow anthers. Very strong stem. Early forcing variety, blooming ahead of the Darwins.

DARWIN TULIPS

We strongly recommend this class of tulips for garden decoration in beds as well as in groups in the herbaceous border and amongst shrubs. Grown for cut-flowers, they prove very valuable at a time when our gardens yield so little for the decoration of our rooms. They bloom during the middle of May, a period when spring flowers are

over and those of summer such as roses, have not yet come in. The blooms last in condition a very long time.

By forcing in pots they may be had in bloom in February or even earlier, most of the varieties improving in color by protection under glass or canvas.

3 for 50c; 12 for 1.50; 100 for 10.50

THE BISHOP

City of Haarlem. Immense, pure scarlet with steel-blue center and white ring.

Clara Butt. The best known and most popular of the late-flowering tulips. A lovely clear pink that intensifies with age.

Glacier (Wildlust). Large pure white oval shaped flower, very strong and long lasting.

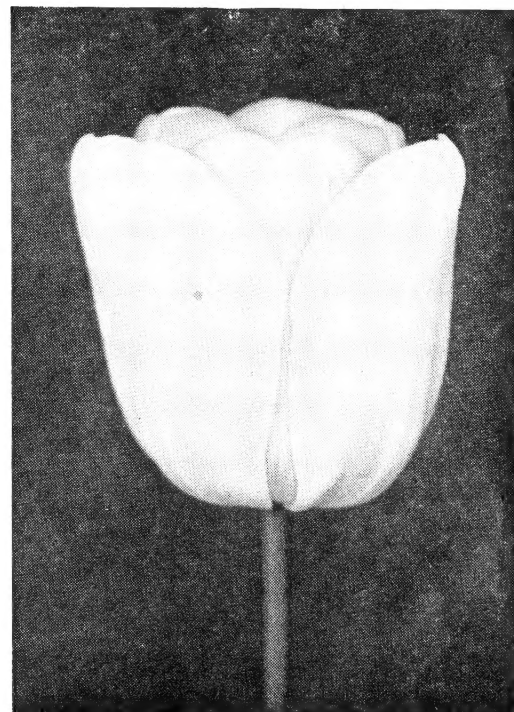

La Tulipe Noire. 26". The nearest approach to black; deep maroon-black with a velvet sheen.

Pride of Zwabenburg. Very fine tall growing tulip, soft rose with broad silvery edge, making a striking effect.

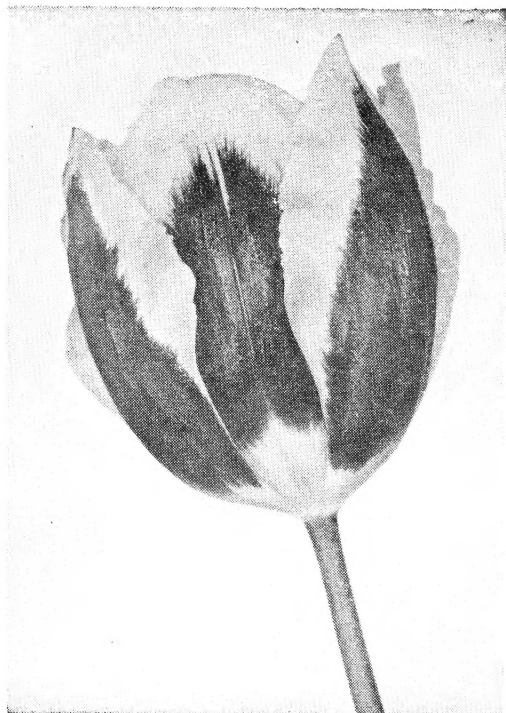

Princess Elizabeth. Charming, clear pink flower deepening to rosy pink as the bloom matures.

The Bishop. Purest heliotrope-violet, **Yellow Giant.** Dark golden yellow, with slight brownish tips.

Zwabenberg. Large snow white flower on tall stem.

ZWANENBERG

KEIZERSKROON

PARROT TULIPS

These Tulips are very suitable for cutting. Their flowers are of quaint and beautiful form. A vase filled with cut Parrot Tulips affords a very artistic effect and a charming decoration for indoors.

Fantasy—The most popular of all the Parrot Tulips with color identical to Clara Butt (of which it is a sport) but with the fantastic shadings, lacinations and excrescences that distinguish all Parrot Tulips. Its inner coloring is deep soft rose. The curious incrustations on outside of the petals are touched with shades of green.

3 for 50c; 12 for 1.50; 100 for 10.50

Blue Parrot—A noble flower of unsurpassable beauty, held on an erect stem, color bright violet outside with a purple interior, when grown under glass it is a warm mauve and opens up to an enormous size. It is a sport of "Bleu Amaible." Height 27 inches. This rare tulip is worthy of a place in your garden.

3 for 50c; 12 for 1.50; 100 for 10.50

Red Champion—This newly introduced novelty is a fine Parrot sport of the good Darwin Tulip Bartigon, the flowers are of quaint yet beautiful form with both inner and outer petals heavily lacinated, opening to enormous size when fully developed. Its color is a uniform warm deep blood-red with only tiny faint white markings at the tip of outer petals, small white base. Good strong grower. Height 28 inches.

3 for 90c; 12 for 2.75; 100 for 17.50

Sunshine—Large golden yellow parrot. A sport of the well-known cottage tulip "Bouton d'Or." A valuable novelty!

3 for 1.00; 12 for 3.00; 100 for 20.00

Therese—24 inches. Brilliant scarlet, inside glittering scarlet of a lighter shade, white center. Remarkably large flower, often 8 inches across. Outstanding and highly recommended.

3 for 90c; 12 for 2.75; 100 for 17.50

SINGLE EARLY TULIPS

Single Early Tulips are very useful for bedding purposes, for planting in groups in front of late-flowering tulips to extend the flowering season. We offer in this list only varieties of proven merit. A number of varieties are extremely valuable for forcing, for growing in pots or bowls and for formal beds in the garden.

3 for 50c; 12 for 1.50; 100 for 10.50

Brilliant Star Maximas—A large sport of Brilliant Star. Flowers rich dazzling scarlet with large bronze center, edged yellow, very good forcer, ht. 12 inches.

Couleur Cardinal—Brilliant dark red variety, slow forcer, can be forced from 25th January, exceptionally suitable for bedding, on account of its very strong stem and the long lasting flowering period.

General De Wet—One of the most attractive early tulips, both for forcing and for bedding. The lovely warm orange color is very striking and attractive. Can be forced from January 5th.

Keizerskroon (Grand Duc)—Rich scarlet, deeply edged bright-yellow. A tall handsome tulip, ht. 14 inches.

All lilies offered are guaranteed to bloom the first year and are the best size for planting.
